

# DOMINIK DZIURDA

## PROFILE

Director of the Healthcare Services Department at the Agency for Health Technology Assessment and and Tariff System (AOTMiT) in Poland. He graduated from the Faculty of Pharmacy at Jagiellonian University Medical College (CM UJ) in Cracow (2002) and the post-graduate program: MBA for Medical Personnel at the Kozminski University in Warsaw (2010). PhD student at the Warsaw School of Economics (SGH).

His work experience includes teaching at universities on subjects related to pharmaceutical law, pharmacoconomics and organization of the healthcare system. He has also worked as market access director in national and central structures in the pharmaceutical industry and as an analyst and specialist in projects regarding access to medical care and quality management.

President of the technical unit in the Fair and Affordable Pricing project, implemented within the Visegrad Group, a member of the Executive Committee of the POINTer project, dedicated to the system of quality indicators.

At the AOTMiT he is responsible for i.a. projects related to transformation of the guaranteed services system, with focus on medical rehabilitation, coordinated care and issues concerning clinical practice guidelines.
